Figure 1

Every call that is made to the Helpline Center is tracked and noted by type (fig. 2). A majority of calls received are information inquiries (last night’s lottery drawing, room reservations, etc.).

August 2018 saw an decrease in intake calls, from 114 in July to 100 in August. *The calls received by the HelpLine Center labeled “Lottery” and “Casino” are from individuals seeking general information specific to those activities, not seeking help for a gambling problem as a result of participating in them.*

Figure 2

Intake Calls YTD 2018

Intake calls represent the calls made by individuals who are suffering from a problem gambling issue, have relapsed, or who know someone with a gambling problem. Callers are provided resources, such as Gamblers Anonymous (GA) meeting information and/or trained counselor contact information. **For the month of August 2018, the total number of intake calls was 100 (fig. 3).**

The Council has received 79 chat and text requests for help to date in 2018. This is in addition to the 799 phone calls requesting help so far in 2018.

Figure 3

One of the primary pieces of information collected from our Helpline Specialists during intake calls is the most problematic form of gambling that a caller, or subject, is engaging in. Slots and other casino based games were the activity named during the majority of calls in August 2018 (fig. 4). This can likely be explained by the promotion and high visibility of the Helpline number throughout each of the 12 casinos that currently operate in Pennsylvania.

Figure 4

Pennsylvania Helpline for Compulsive Gamblers

This month, Allegheny and Montgomery counties accounted for 25% of intake calls. In August 2018, the Helpline saw Luzerne, Philadelphia and Berks counties make up an additional 16% of intake calls.

Additional Helpline Details – 2018

		JAN	FEB	MAR	APR	MAY	JUN	JUL	AUG	SEP	OCT	NOV	DEC	YTD
Suicide		Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	CALLS
	Present	1	0	0	0	0	0	0	0					1
	No	96	86	98	99	101	102	114	100					796
	Past	0	1	0	0	0	1	0	0					2

National studies have shown remarkably high rates of suicide ideation and attempt rates by problem gamblers - inquiring about a callers' current state is always a priority. In August 2018, no callers presented a risk of harm to themselves or others.

Callers Subject		Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	CALLS
	Family	8	12	10	11	17	11	15	12					96

Caller's Gender		Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	CALLS
Female		30	33	39	37	34	27	43	45					288
Male		67	53	59	62	67	76	71	55					510
Unwilling		0	1	0	0	0	0	0	0					1

On average in 2017, the percentage ratio of female to male callers/subjects was 43% to 57%. 2018 shows that approximately 36% of helpline calls are regarding female gamblers.

Ethnicity of Caller		Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	Calls	CALLS
African American		21	16	14	9	21	8	11	6					106

Other		1	2	1	2	4	1	0	0					11
Unwilling		1	2	4	2	1	1	4	3					18

While studies have shown that Caucasian males gamble the most overall, it has been found that African-American males gamble most frequently and, unfortunately, develop problems at a very high rate. This disorder can impact people of all backgrounds, yet for some cultures, outreach for help is very limited.

In November 2015, the Council on Compulsive Gambling implemented a ‘chatline’ and ‘text for help’ option into the existing Helpline Services. Like the Helpline, the chatline and text options are available 24/7 and provide an additional level of anonymity for those who may not be ready to physically verbalize the issues they are experiencing. Since the program began, we have seen continued use of these services and are pleased to offer another available resource for individuals seeking assistance.
